

Student Admissions, Outcomes, and Other Data

University of North Texas Clinical Psychology Ph.D. Program

We are providing the following information to fully disclose to prospective students, current students, and the public information about our program processes and outcomes, including time to completion, program costs, internships, attrition, and licensure.

As a member program of the Council of University Directors of Clinical Psychology (CUDCP), the Clinical program has a history of providing such comparative information. All member programs "support the provision of fuller disclosure about operations and outcomes of our educational endeavors."

We recognize that these numbers may have little meaning. These numbers provide some information about our current students, but do not tell the whole story. Prospective applicants are discouraged from inferring from these data how likely they are to be admitted to the program or how quickly they will complete requirements. There are many factors that cannot be easily captured by these data. For example, our program does not screen applicants merely on GRE scores. High GRE scores will not automatically result in admission; rather, we review all aspects of the applicant's record to determine who will likely be the best fit for our program. In our review process we consider the following:

- research experiences
- clinical experiences
- quality of undergraduate training
- letters of recommendation
- GRE/GPA
- applicant's interest and fit with our program

What is important for an applicant is that this program truly engages in "truth in advertising" about what it does. We provide much information about our program so that applicants may find an appropriate fit with us or with another training program elsewhere.

The maximum amount of credit for appropriate prior graduate work is 30 semester hours. An entering student may request to waive a combination of program (no more than 12 hours) and departmental course requirements up to this limit. This may reduce the length of time for completion of the program, but this varies by individual and cannot be assured.

The numbers in the above table somewhat overestimate the length of time to degree completion due to some internship programs ending past the deadline for summer (early August) graduation. For those students, the degree is awarded at December commencement. Functionally, however, such students are simply pending institutional ceremony and are no longer enrolled.

Program Costs

Description	2017-2018 1 st -year Cohort Cost
Tuition for full-time students (in-state)	\$3,633.48 x 2 semesters = \$7,266.96
Tuition for full-time students (out-of-state)	\$8,613.48 x 2 semesters = \$17,226.96
Tuition per credit hour for part-time students (if applicable enter amount; if not applicable enter "NA")	NA
University/institution fees or costs	\$1,127.97 x 2 semesters = \$2,255.94
Additional estimated fees or costs to students (e.g. books, travel, etc.)	\$968.00 x 2 semesters = \$1,936.00

*TX law prohibits tuition waivers. All students were provided with scholarships that offset the out-of-state tuition costs reported above.

Licensure

Outcome	2007-2017
The total number of program graduates (doctoral degrees conferred on transcript) between 2 and 10 years ago	58
The number of these graduates (between 2 and 10 years ago) who became licensed psychologists in the past 10 years	55
Licensure percentage	95%

**Due to the variability of career paths in the field of psychology, some of our graduates choose occupations that do not require licensure or move internationally. Our program's rate of passing the licensure exam, according to ASPPB who oversees the exam nationally, is 96%.
